

BACKCOUNTRY AREAS DANGEROUS

DANGER

There are unpredictable risks outside the controlled ski areas. Every action you take is at your own risk. Reckless decisions and actions may be life-threatening. Do not enter the backcountry areas carelessly.

Check Weather, Terrain, etc.

- ☐ Check the latest weather forecast and avalanche information.
- ☐ The route you take must be within your skill and physical limits.

Check Winter Mountain Equipment

- ☐ Carry a beacon, probe and shovel.
- ☐ Carry a GPS device.
- ☐ Carry a mobile phone as a means of communication in an emergency.

Safety Management

- ☐ Make a mountaineering plan and let your family and acquaintances know your destination.
- ☐ Follow the rules of the ski resort.
- ☐ Outside the controlled ski areas, there are many risks such as avalanche and collision against a tree, etc.
- ☐ A lot of search/rescue costs from the ski resort, etc. will be charged to you if you call for help.
